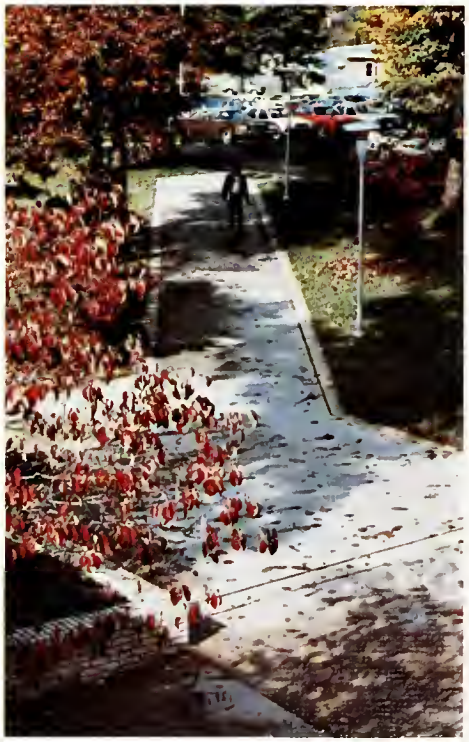
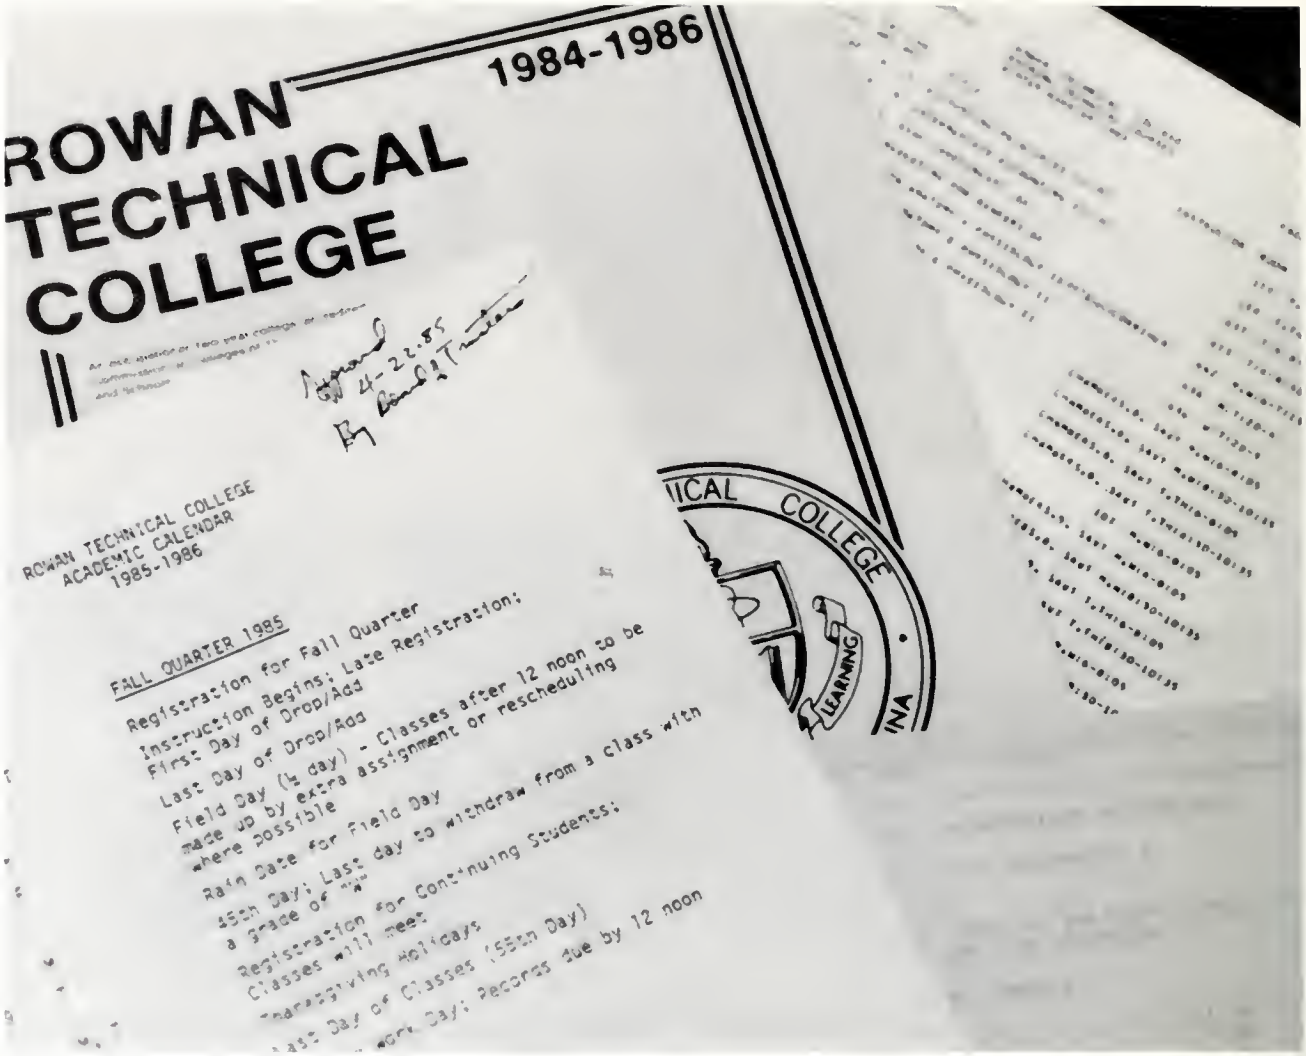
1986 SPECTRUM

Rowan Technical College

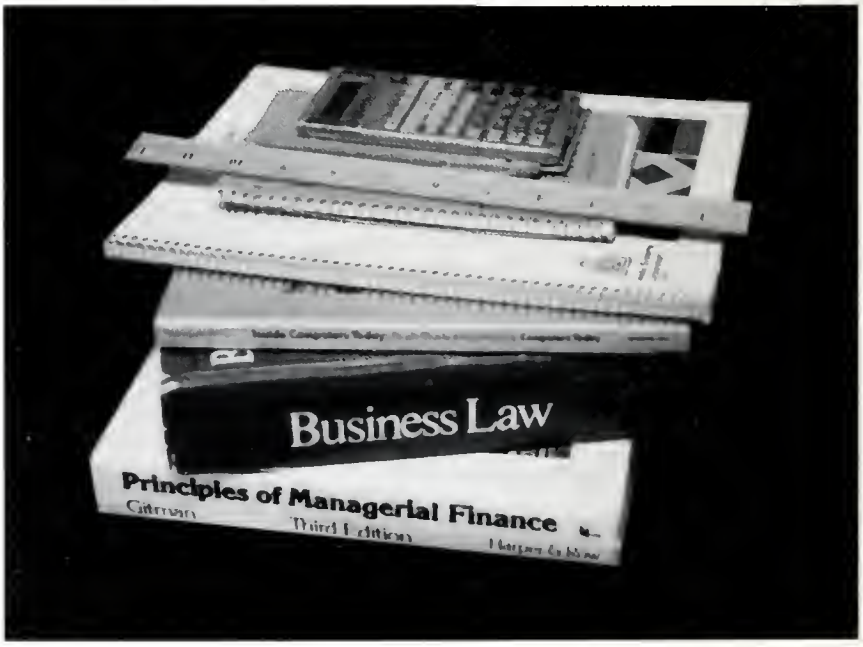
Salisbury, NC 28144





Our World . . .

Rowan Technical College makes up a large part of our daily lives. While we're here, these are the details that make up our days.



. . . And Welcome to It.

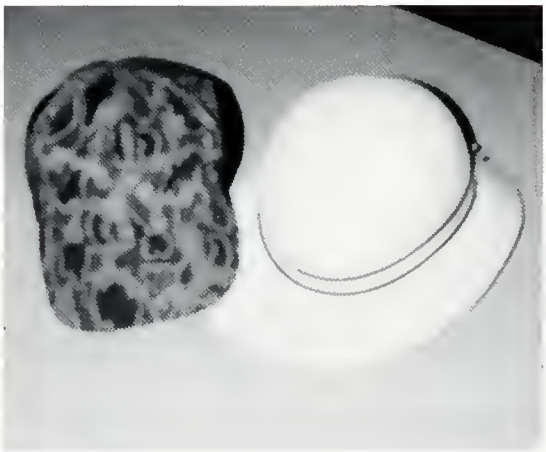
The World Around Us . . .

Fashions

If you're on Rowan Tech Campus
day or night,
You'll see some beautiful
fashions that are out of sight.
You'll see the latest crazes that
are out this year,
When you look at these pages
you can see what's here.

What's Hot at Rowan Tech.



Yes, it is true. Here at RTC, people like to do it in style. By walking on campus, you can see the latest fashions and fads. You may even get some new ideas!

On The Road Again

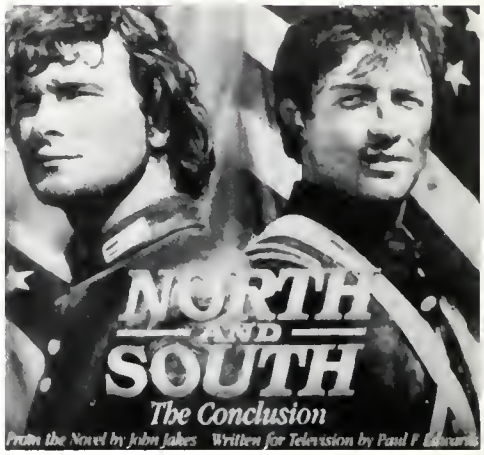
Typical morning around Rowan Tech is very hectic with bus riders and car poolers arriving on campus. Students come from far and near to expand their knowledge in the changing world. Every one is in a rush to get to class by 8 o'clock.

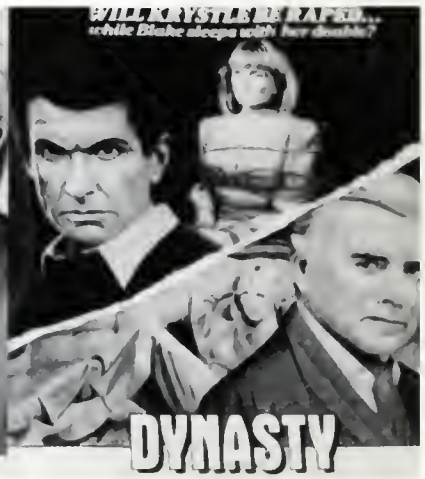
THE LUNCH BUNCH

Our Daily Work . . .

We fit in to a larger world. We drive to get here. We take our breaks. Here you see us going about our daily work: Registering for classes, talking to our advisors, getting ready for a new quarter.

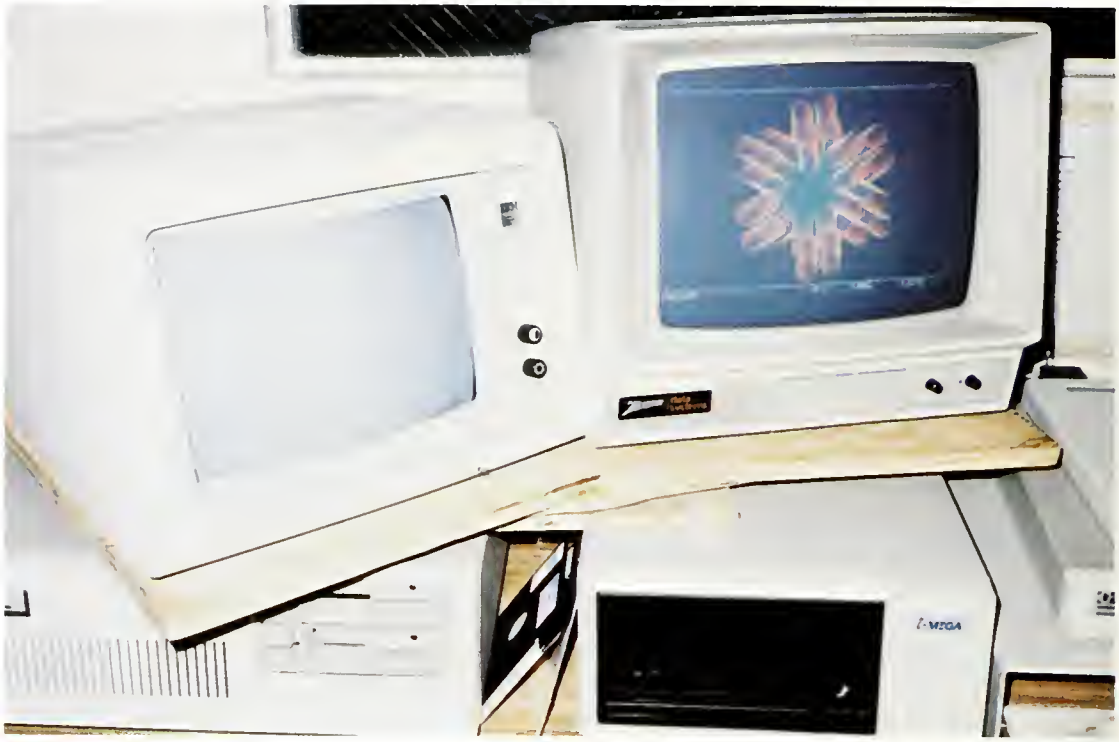
Rowan Tech is Head Over Heels About . . .





Rowan Tech goes crazy this time of year. With new shows coming out like **Dynasty II: The Colby's** and old ones getting better such as **Miami Vice,** there is always something good to talk about. But television is not the only thing getting attention these days. Prince Charles and Princess Diana coming to the United States is almost as popular as the game Trivial Pursuit. Even though learning is our main purpose here at Rowan Tech, everyone needs a break once in a while.

COMPUTERS



Computers have become such a vital part of our lives. Here at Rowan Tech we use computers for everything from word processing and programming to graphics and art designing, as shown above.

STUDENT GOVERNMENT ASSOCIATION

Debbie Butler, Vice-president

Nancy Howard, President

Keith Overcash, Treasurer

Michelle Gobble, Secretary

STUDENT GOVERNMENT ASSOCIATION

Several changes have occurred in the SGA offices during the year. Nancy Howard, pictured on opposite page as President, had to resign due to family reasons. Debbie Butler, opposite page, was promoted from Vice-President to President. The SGA Representatives chose Melody Riddle, not pictured, to fill the Vice-President's office. Bob Wolff, pictured above, was the originally elected Secretary. He had to resign due to personal reasons. Michelle Gobble, opposite page, has remained in office the entire year, as secretary and Keith Overcash as treasurer.

The pictures to the left show a typical SGA meeting in process.

FIELD DAY 1985

The Student Government Association at Rowan Tech sponsors a semi-annual Field Day for the students here. The pictures on these two pages are from Fall Field Day, held on Friday, October 4, 1985, on the Rowan Tech campus.

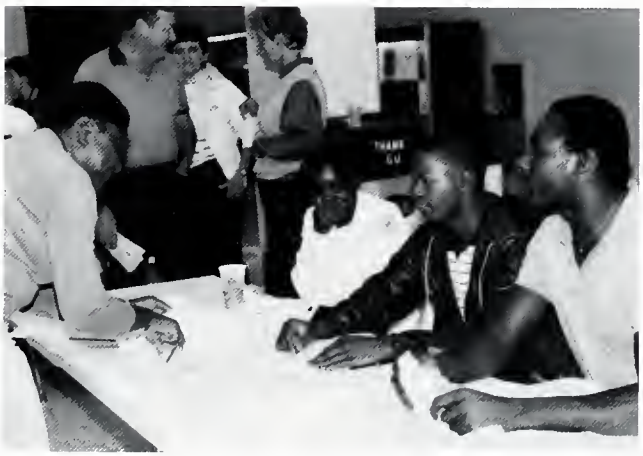
The S.G.A. prepared lunch for those who attended.

"There's something here I don't like!"

FIELD DAY 1985

Some of the events at Field Day included volleyball, a bar-b-que lunch, water balloon toss, free Rowan Tech bumper stickers and calendars.

Something funny is going on here!



Here are some students picking up their free Rowan Tech bumper stickers/calendars.

ANNUAL BLOODMOBILE

Giving blood is more fun than lots of people think!

You too can donate blood in six easy steps:

1. Sign up
2. Have your temperature, pulse and blood pressure checked
3. Have your blood tested
4. Answer a few questions about your medical history
5. Donate blood
6. Have a drink and a snack

SPECIAL PROGRAMS

TRUCK 2

SALISBURY FIRE DEPARTMENT

The office of Personnel Development for the Salisbury Fire Department is located on Rowan Tech's campus. All training for S.F.D. is administered and coordinated here. They provide career development for Salisbury's fire service personnel. In addition to career training, the office is also a research center on special projects and new tools and equipment innovations.

Rowan Tech was an ideal site for the program because we used to have a Fire Science Program. The resources from this program, including the fire training grounds, are still here.

BASIC LAW ENFORCEMENT TRAINING CLASS

The graduating members of the Basic Law Enforcement Class of 1985 were as follows: R.E. Barbee, R.C. Beeker, J.H. Blalock, Jr., G.M. Brawley, D.F. Brock, R.B. Buckwell, C. R. Bumgarner, T.M. Combs, M.D. Davis, Jr., J.H. Dorton, B.K. Eagle, D.M. Everhart, E.J. Flake, C.C. Furr, J.W. Garrett, Jr., L.R. Gentle, W.L. Gray, J.B. Greene, R.W. Hartsell, C.A. Herndon, Jr., T.R. Honeycutt, R.D. Horton, P.D. Hunt, S.D. Johnson, D.R. Kurfees, D.W. McClester, J.A. McCorkle, C.F. McClain, L.D. Means, E.G. Moss, M.A. Neely, B.L. Nix, R.O. Page, P.W. Phifer, Jr., P.G. Rorie, R.M. Rowland, T.B. Rowland, C.A. Sechler, D.S. Tran, L.W. Ward, K.B. Williams, M.R. Williams, and S.R. Woodsom. Congratulations to all from the **SPECTRUM** Staff.

ALLIED HEALTH PROFESSIONS

CONTINUING EDUCATION

Quilting Instructor Marie Wood is pictured, and a student (below) works with a quilt in progress. Aaron Johnson is the director of Human Resources Development; Ann Holstein is intake co-ordinator. Senior secretaries in Continuing Education are Judy Von Cannon and Martha Barringer.

One of the most active areas of Rowan Tech is Continuing Education. It handles everything from computers to quilting, from high school degrees to bricklaying. From top left, clockwise: Nancy Oakes, Human Resources Development Co-ordinator; Lora Withers, Adult High School Co-ordinator. Brenda Agnew is the secretary/receptionist and Betty Yates an entry clerk. Larry Yon is an HRD Co-ordinator; Patsy Bost is in charge of Arts and Crafts Programs.

DAVID MORRIS, 1985-86 Visiting Artist

The Visiting Artist Program is part of a state-wide program which allows Community Colleges to host an artist. This year, David Morris was Rowan Tech's Visiting Artist.

Davis is a skilled singer and player of old-time music. A native of West Virginia, he is not only a talented performer, but an organizer as well. Part of his work here includes organizing activities and concerts for the Folk Heritage Society.

Mid year, unfortunately, David had minor throat surgery. This kept him from speaking or singing for a couple of months, but by spring time, he was back in form!

Cabarrus Centers

Rowan Technical College provides education through two centers in Cabarrus County. These are the Corban Center in Concord and the Carver Center in Kannapolis. Through these centers students are able to take introductory curriculum courses in business programs, Early Chldhood Education, and Criminal Justice. Additionally, a large number of students are enrolled in basic education, Adult High School Education, and occupational extention courses. Belinda French from the Corban Center is pictured typing certificates, and Kaye Danford from the Carver Center is drafting a report.

PHYSIO-FITNESS TECH.

This year Rowan Tech introduced a new curriculum: Physio-Fitness Technology. Research showed a growing need for people in the physio-fitness area. Once through with the program, graduates can work in fitness clubs, businesses with their own health facilities and programs, hospitals, nursing homes, and government agencies. Our graduates will be at the first level of competence, fitness instructor, as certified by the American College of Sports Medicine.

MORE THAN A PASSING FAD

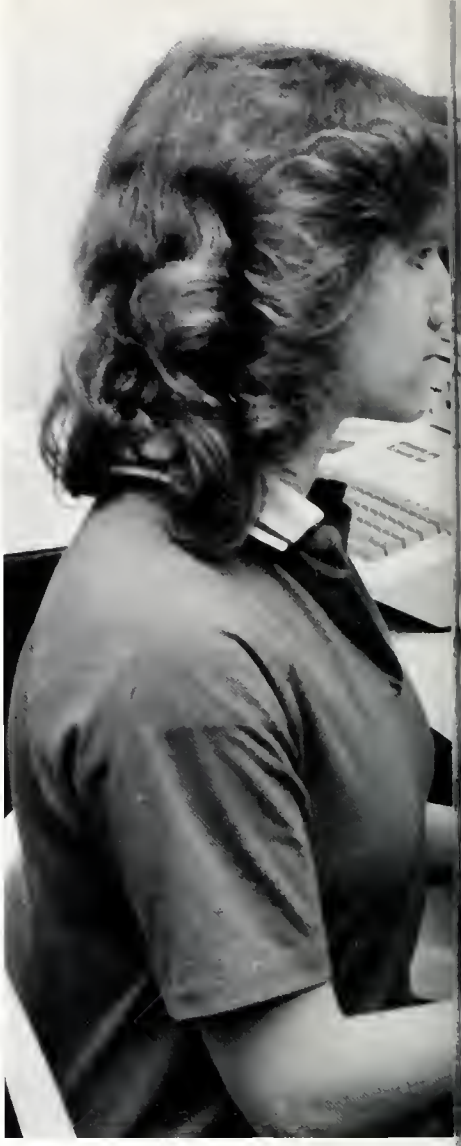
We've become a nation of "sitters." Most of our jobs keep us sedentary, and this lack of activity isn't good for us. Recently, we've become more aware of the relationship of diet and exercise to good health. It takes a specially-trained person with technical expertise to help design programs combining good eating, regular exercise, and a healthy lifestyle.

Learning the proper way to use a rowing machine.

DRESS FOR SUCCESS

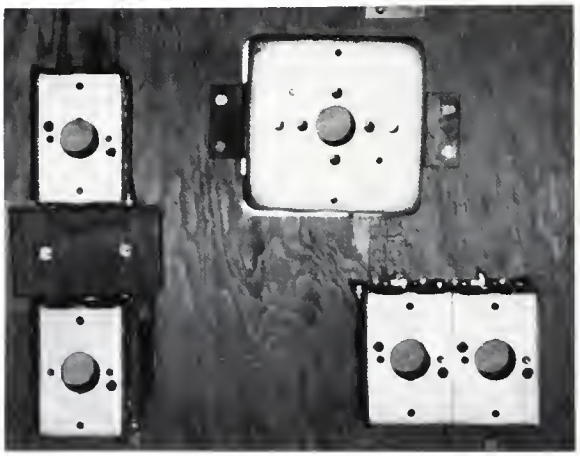
This is a typical Dress-Up Day for accounting students. They not only earn bonus points, but they are also building their professional wardrobe. This program encourages students to prepare themselves for a businesslike image.

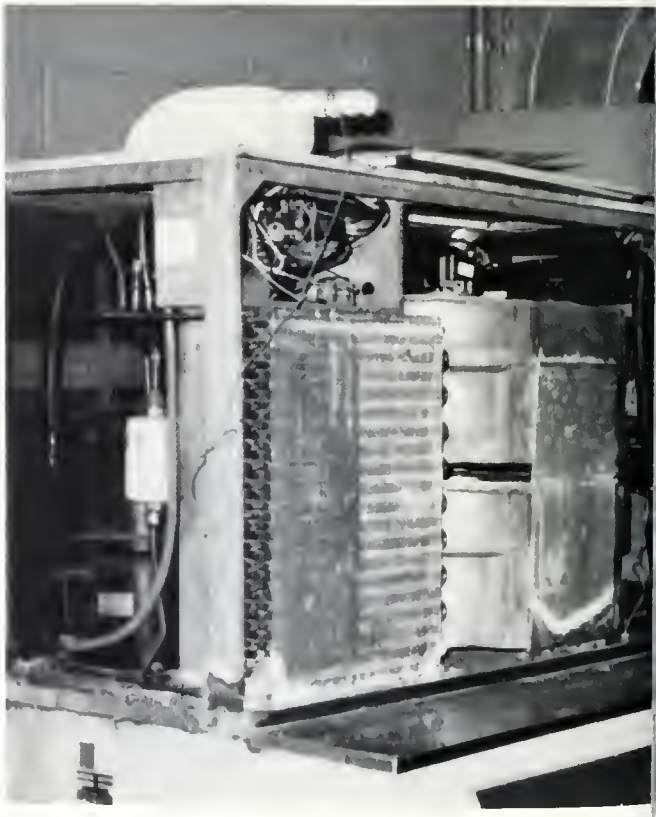
COMPUTERS AROUND ROWAN TECH



Computers are used in various functions around Rowan Tech, from word processing to programming to radiologic technology. The pictures here represent some of the various types of computers that can be found around the Rowan Tech campuses.

EQUIPMENT FOUND AROUND ROWAN TECH





These pictures show only a few of the types of machinery that can be found around the campus of Rowan Tech. Clockwise from top left are a computer flowchart drawn by Vernon Clodfelter, BCP instructor, boxes of computer supplies outside Room 337, a picture from the Electronics department, and a shot from the Air Conditioning department.

FACULTY AND STAFF

THE TRUSTEES AND PRESIDENT

Dr. Richard Brownell is the College President. This year's trustees are (standing) Raymond Johnson, Harold Kenerly, Richard Brownell, Sarah Singer, Larry Ford, Robert Waddell, Joe Rutledge. Seated are Sam May, Phil Smith, Marcelle Williams, Dr. John Wear, C.C. Brewer.

The College was re-accredited by the Southern Association of Colleges and Schools. This was a campus-wide effort. One aspect the Southern Association praised highly was our campus.

COLOPHON

1986 Spectrum

Printed by Hunter Publishing in Winston-Salem, the 1986 annual was printed with a trim size of 7¾ x 10½. We had 450 copies printed, each with 104 pages. The cover is slate grey, embossed with the College seal. The paper is 80 lb. embossed, and we used Helvetica Eurostyle type in Hunter Black ink. The endsheets are white and unprinted. Color pages are in the first signature and reproduced from color prints submitted in exact size. Color material was submitted in early December. The final deadline was at the end of February.

Spectrum Staff

The students in English 121 and 122 produced the 1986 annual.
